

sequence of the Cube of Space which we activate over a series of retreats conducted roughly every six months. The process will implement lecture, sound, color, sacred symbols [Tarot Keys] and meditation in a co-created temenos (sacred container) generated by the community of participants.

In this first retreat we will constellate the fundamental structure of the Cube of Space and activate its boundaries. This will require prolonged periods of concentration, structured thought, harnessed imagination and openness to transformation. We provide this rare opportunity to facilitate the development of individuals who can successively carry and express essential evolutionary forces so desperately needed at this crucial time.

**If you are called to the act of service, I invite you to attend.**

### The Facilitator

Joseph is a recognized teacher in the tradition of Mystery School teachers, which reaches back into antiquity. His interest in esoteric spirituality became evident in his childhood. As a teenager, he was studying Theosophy, mystical Christianity, and Qabalistic texts. At eighteen, he was contacted by a group of Initiates and began his formal training in the Western Mystery Tradition. He experienced his spiritual education often as a remembering. Since 1980 he has worked closely with extraordinary teachers from many traditions and has advanced the core understanding of western esoteric spiritual work. Through his study groups, retreats, workshops, and lectures, Joseph carries on the tradition of passing sacred Arcana "from mouth to ear". Joseph is well known for his lively, challenging, intense, and humorous style of teaching. As a Jungian Analyst he sustains a private practice in Virginia Beach, VA focusing on transformational work with individuals and co-creates This Jungian Life podcast. You can reach him at [JRJLEE@earthlink.net](mailto:JRJLEE@earthlink.net).
